PROFESSIONAL SUMMARY CS undergraduate with dual internship experience in front-end development and AI/ML. Skilled in Python, Java, and modern frameworks to build applications, automate workflows, and deploy data solutions. Strong foundation in DSA, cloud computing, and project leadership.

EDUCATION

SRM INSTITUTE OF SCIENCE & TECHNOLOGY

Jul 2023-June 2027

Bachelor of Technology , Computer Science

Related Coursework: Database Systems, Software Development, System Design , Operating System

GPA: 8.92/10.00

EXPERIENCE

IBM SkillsBuild Internship Program

Jan 2026

AI/ML Intern

- Selected for a competitive 6-week internship facilitated by IBM and Edunet Foundation.
- Gained structured exposure to Artificial Intelligence and Machine Learning concepts.
- Applied Python libraries (NumPy, Pandas, Scikit-Learn) to solve real-world data problems.
- Collaborated with peers across India on project-based learning through the IBM SkillsBuild platform.

Candour Software Pvt. Ltd.

Web Development Intern

Dec 2025

- Developed responsive user interfaces using HTML, CSS, JavaScript, and React.
- Contributed to front-end modules in a team environment, ensuring cross-browser compatibility.
- Improved UI performance and accessibility, enhancing user experience for client projects.
- Gained hands-on experience in agile workflows and collaborative software development.

PROJECTS

AI-Native Campaign CRM

Jun 2026

- Architected a decoupled, high-scale CRM system, engineering an asynchronous event loop with webhooks to process high-volume campaign payloads without degrading main API latency.
- Developed a natural-language AI Copilot for audience segmentation and built a real-time analytics dashboard using optimized SQL joins for 100% accurate delivery state tracking.

Equiscore

Mar 2026

- Created an Explainable AI (XAI) framework to automate creditworthiness evaluation using LightGBM and XGBoost.
- Enhanced Data Fairness: Integrated ADASYN oversampling to handle class imbalance, significantly improving minority class recall and model accuracy.

AI StudyBuddy

Feb 2026

- Architected RAG Pipeline: Engineered a Retrieval-Augmented Generation system using LangChain and Google Gemini to ensure 100% contextual accuracy.
- Built Interactive Dashboard: Developed a Streamlit interface with automated summarization, MCQ generation, and recall flashcards to reduce study prep time by 90%.

TECHNICAL SKILLS

Languages: Python, Java, C++, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, IntelliJ IDEA, GitHub, Google Colab, PyCharm, WebStorm

Frameworks: React, Pandas, NumPy, Scikit-Learn, Matplotlib

CERTIFICATES

- Machine Learning with Python – IBM
- Python 101 for Data Science – IBM
- AI For Everyone – DeepLearning.AI

Dec 2025
